REPORT OF SCHOOL BOARD

We believe that our schools the past year will compare favorably with those of preceding years.

We have had two terms of ten weeks each in ten divisions of the town. The law of our state requires each town to maintain its schools at least twenty weeks each school year, and no town can receive any portion of the literary fund unless it has complied with this requirement. We barely cleared the law as to the length of schools the past year, closing them before the money was all expended, because the attendance in many of the schools was so very small.

A large part of our scholars are small and many of them live a long distance from the school-house and it is difficult for them to attend school regularly more than twenty weeks in a year. The traveling is usually poor until about the first of May, and ten weeks from that time carries us to hot weather. Many parents object to having the fall term begin before the first of September, and, in ten weeks from that time the weather is cold and the traveling bad; therefore, unless parents will make a greater effort to help their children to school and to have them more regular in their attendance, it seems useless for the town to provide more schooling than the law requires.

And yet, with no more than twenty weeks of school in a year, only a small proportion of the children in town will be able to avail themselves of the benefit of the law enacted at the last session of the New Hampshire legislature, compelling towns to pay the tuition of any child who wishes

to attend a high school or academy, and who is qualified to enter one of the regular courses of such school.

As we have one of the very best institutions of learning in our town, we should not neglect to provide the means that will enable the average scholar to obtain a good education.

To this end we urge parents and guardians to make an earnest endeavor to have the children in school every hour they possibly can.
